

GLOBAL LOGISTICS FOR COMMERCE

FREIGHT SOLVED

what others simply won't do

OUR COMPANY

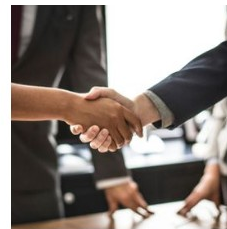

Freight Solved is a Full Service Global Logistics Provider

In the world of international commerce, everything revolves around timely and efficient logistics. Commerce without logistics is like a vehicle without an engine. This is where we come in. We will never oversell or make a commitment we don't truly believe we can deliver on.

We communicate not just inform.
We offer value not just pricing. We
deliver results not promises ...and
we listen.

We listen to your problem and analyze the options and offer a solution that provides for the best possible options to make the service efficient and a good value to you.

Strong in Latin America with a presence of over three decades. We make commerce work for you.

We consider personal and detailed service and guidance to our customers to be the key factors in our service offerings and that is why we always think in terms of solutions that add value so you can concentrate on your core business.

Rule # 1

Everything should be made as **simple**
as possible, but not simpler.

Albert Einstein

SERVICES

Honesty and hard work are our core values

- **TRANSPORTATION**

Be it **Surface, Air** or **Ocean** we got you covered with integrated solutions to fit every budget and need. More than three decades in the Shipping Industry provides for a unique perspective based on the compounded knowledge acquired through the years.

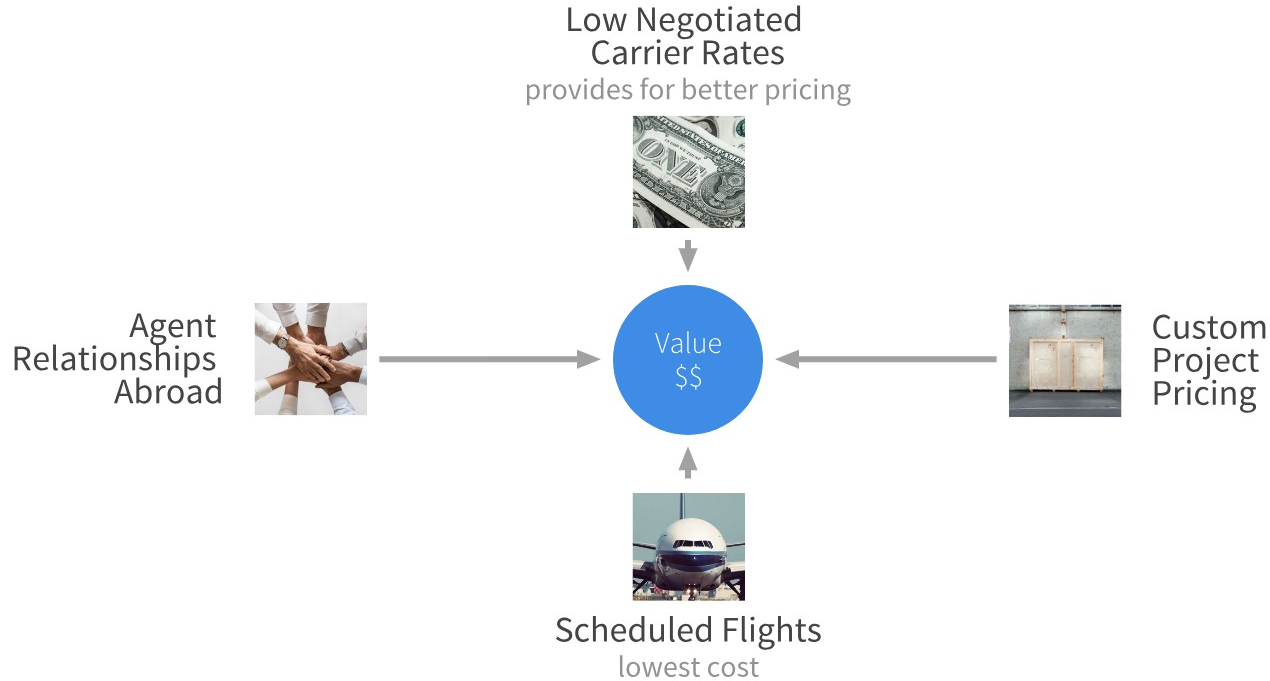

- **FULFILLMENT**

Through our subsidiary “PARCEL SOLVED” we can provide **Warehousing & Inventory Services** as well as Order Picking and Domestic Shipping

- **CUSTOM SOLUTIONS**

We will not try and have your needs conform so that they fit nicely into one of our shipping solutions like others do. We recognize that although many needs may be met by standard shipping solutions, some require **creative solutions.**

COMPETITIVE ADVANTAGE

PAST CHALLENGES

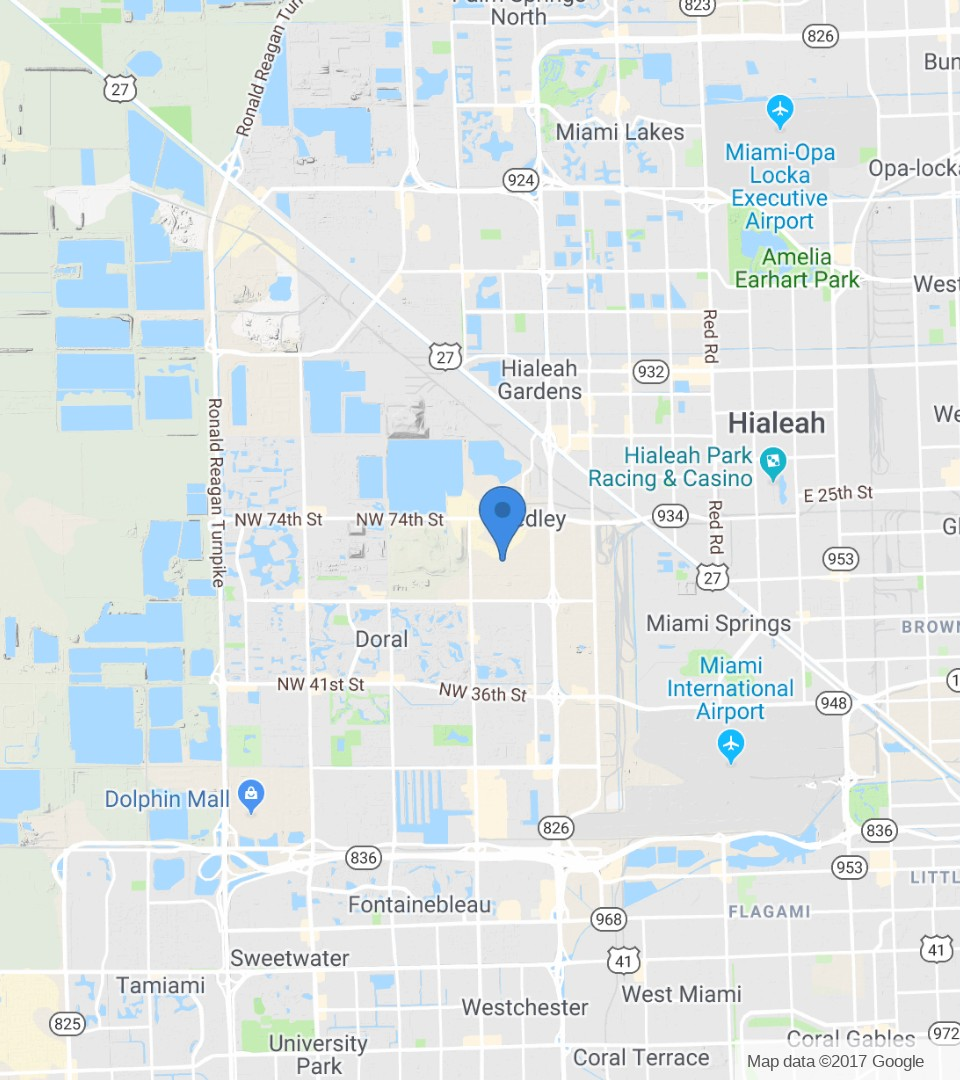

Customer: Tiffany & Co.

Entrusted with shipping the one-of-a-kind 2009 U.S. Open Tennis Championship, Men's Singles Trophy to Juan Martin del Potro in Argentina. Saved customer money and headaches after receiving the wrong trophy and alerting them to that fact. Delivery was made without a hitch after trophies were exchanged.

Customer: The Breakers Palm Beach

How do you ship an 8ft. statue of the Easter Bunny made of glass and weighing 700 LB? Very carefully. That is exactly what we did when we shipped this Bunny to the Cayman Is. for the person that purchased this from the display at The Breakers in Palm Beach, FL. Crated and packed on-site with extreme care to ensure item arrived intact.
